

At SafeNet, our goal is to employ the brightest and most talented people in the industry. With more than 30 offices worldwide and more than 1,100 employees, we know the importance of hiring the very best to make our company succeed. No matter what the job is—Tech Writer, Software Engineer, or Customer Service Rep—we’re always looking for our future leaders. If you’re seeking a challenging career and would like the opportunity to advance, then SafeNet may be right for you. SafeNet, get inside.

We are currently recruiting for the following position to be located at our corporate headquarters in Belcamp, Maryland.

Lead DBA – Oracle E-Business Suite

Summary:

Under general supervision, the EBS Database Administrator DBA / Team Leader will perform various tasks related to database administration, database applications, and data warehouse design, creation, and support. Additionally, this person is responsible to lead a global team of DBA’s.

Oracle e-Business Suite Responsibilities:

Responsible to implement and manage an e-Business Suite environment. To do so, the Oracle DBA requires additional expertise beyond that of an Oracle DBA in a traditional, non e-Business Suite environment. The Oracle Technology Stack which comprises SafeNet’s e-Business Suite environment includes: 10g database, the 10g Oracle Application Server, Oracle Portal, Single Sign On, Oracle Internet Directory, and Oracle Forms and Reports.

Database administration in a global e-Business Suite implementation includes:

- Working with System Administrators and Application Development teams:
 - To install the e-Business Suite technology stack: Oracle database, Oracle Application Server, e-Business Suite modules
 - Applying e-Business Suite patches
 - e-Business Suite CLONING
 - Applying database patches
 - Configuring automated Backup / Recovery processes
 - Scripting to start/stop all components across the database and application tiers

- Oracle 10g database management and administration
- Oracle Applications System Administration
- Database and application tuning
- Configuration of Oracle Enterprise Manager to monitor and manage the e-Business Suite environment
- Custom development of Oracle Forms and Reports to integrate with the e-Business Suite applications
- Problem isolation and resolution
- Interacting with Oracle via their formal SR process in order to secure assistance and solutions for problems which are beyond our internal capabilities to solve
- Supporting Oracle Applications project teams
- Providing DBA support from development and testing through the production implementation.
- Performing Oracle Applications DBA tasks included installing the Oracle e-Business Suite technology stack, applying e-Business Suite and database patches, general database support and Linux support.

Team Lead Responsibilities

- Provide supervision to DBAs

Qualification Requirements:

Education:

Bachelor's degree in business or computer science or equivalent work experience.

Experience:

Two+ years of hands-on experience supporting Oracles E-Business Suite in a production environment.

Three years developing and supporting applications in SQL Server.

Two years of SQL Server or Oracle database administration.

Experience designing, creating, populating, and supporting a data warehouse.

ERP applications implementation and support experience

Experience working with remote teams

Skills:

General knowledge of database administration, programming and systems analysis procedures.

Data Warehousing and Extract-Transform-Load (ETL) processes.

SQL Programming

Data modeling and performance tuning.

Business systems knowledge a plus (i.e. Financials, HR, supply chain, manufacturing).

Good verbal and written communications skills.

Ability to manage stress and pressure inherent to application development, implementation, and support.

Able to identify, analyze, and resolve complex problems in a production controlled environment.

Ability to work independently and as a team member

We offer competitive salaries, an excellent benefits package, telecommuting opportunities for some positions and a beautiful corporate headquarters overseeing the Bush River in Harford County, Maryland.

On site, our employees can take time from their busy days and unwind in our fitness center. At no cost to our employees, our fitness center includes a nice selection of stationary bikes, treadmills, elliptical machines and an all purpose multi-station gym.

Our 3rd floor break room is an ideal place to spend your lunch time with other co-workers. Fully equipped kitchen appliances and an ample selection of vending choices will give you a variety of options with lunches and dinners. A 25" cable TV, air hockey and ping pong tables will unfortunately make your lunch break go by very fast. We are minutes away from many restaurants and "lunch places" and a few miles down the road from I-95.

To apply for this position please send your resume to humanresources@safenet-inc.com
